

Changes (from the recent change request given):

The image shows a mobile app interface for creating a campaign. The title is "Create Campaign" with a close button (X) in the top right. Below the title is the subtitle "Campaign Details". A progress bar at the top indicates four steps: 1. Campaign Details (active), 2. Budget & Timeline, 3. Select Influencers, and 4. Review & Submit. The main form area contains the following sections:

- Category:** A dropdown menu currently showing "Fashion".
- Language of Delivery:** A dropdown menu currently showing "English".
- Target Platforms:** A summary bar showing "3 platforms selected (Instagram, YouTube, TikTok)" with a right arrow. Below this are three individual platform tags: "Instagram" (with a close button), "YouTube" (with a close button), and "TikTok" (with a close button).
- Deliverables:** A section highlighted with a red border. It contains a text input field with the placeholder "e.g. 1 x YouTube video (5 min)..." and a blue circular button with a white plus sign (+) to the right of the input.

At the bottom right of the form is a blue "Continue" button with a right arrow.

NEW CHANGE A: I think it is better to give a drop down option to select from. (I think this way the platform can easily match the campaign budget with the influencer's rate card.) (also is it ok to ask the user to give detailed brief at the very first step? can we make it editable in the campaign workspace so the process would be simple for business. also please try to add a feature like uploading a screenshare / video/voice note or something so the influencer will get a more detailed picture. sometimes our users may have language barriers too)

Latest Change A: Please make sure we can do this. (if unable, remove from UI)

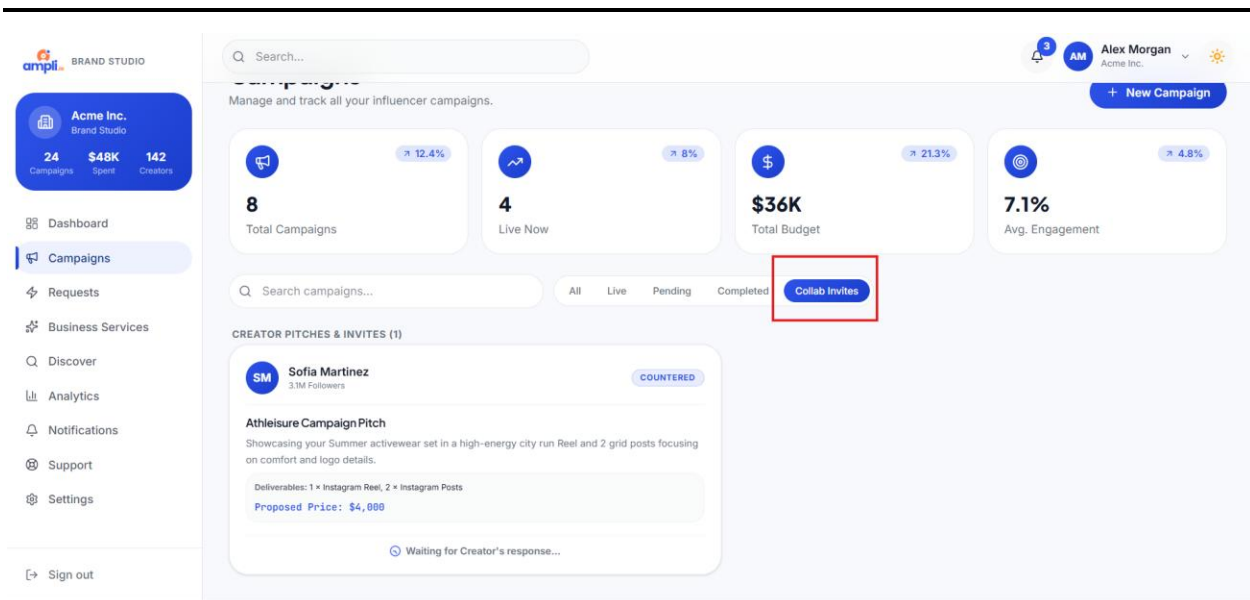

Campaign Workspace:

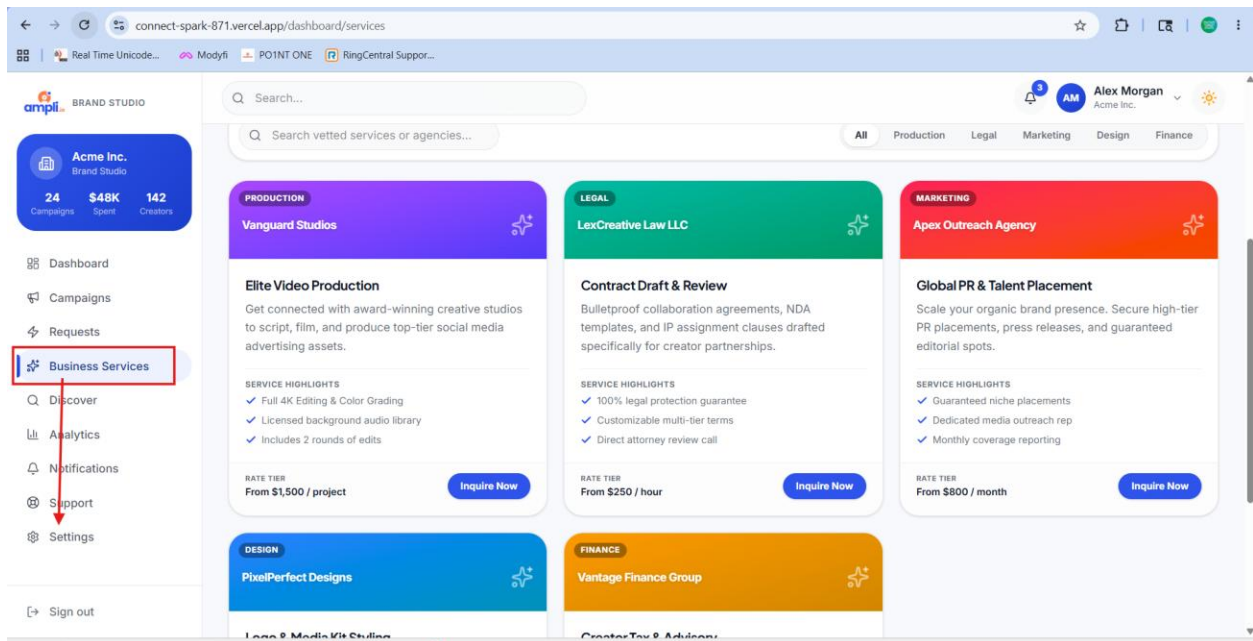

- New Change B / 18th Change: Deliverables area can be like this or we can arrange it in a list view instead of grid view

Campaign workspace layout changes are not being done it seems

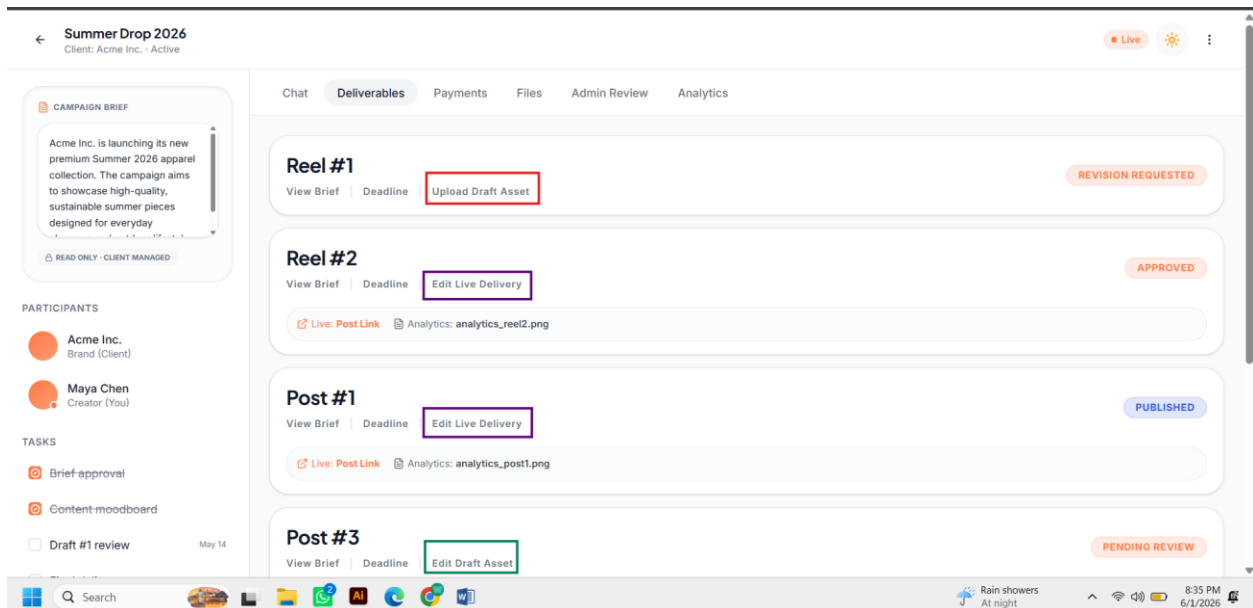

Latest Change B: Collab Invite tab should not come under campaigns, just rename the requests tab to "Collab Invites" all the content in the request tab is correct

Latest Change C: Move the Business Services tab to 9th place (before settings)

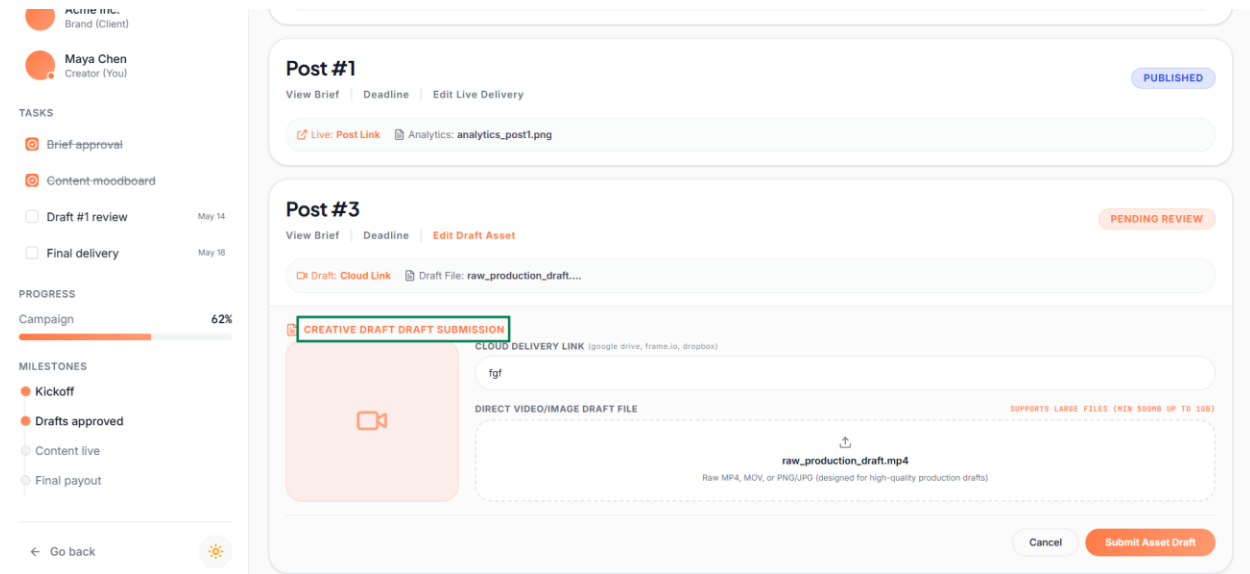

Latest Change D: only the Discover tab opens kind of full screen when clicked. make it like other tabs pls

Influencer Dashboard

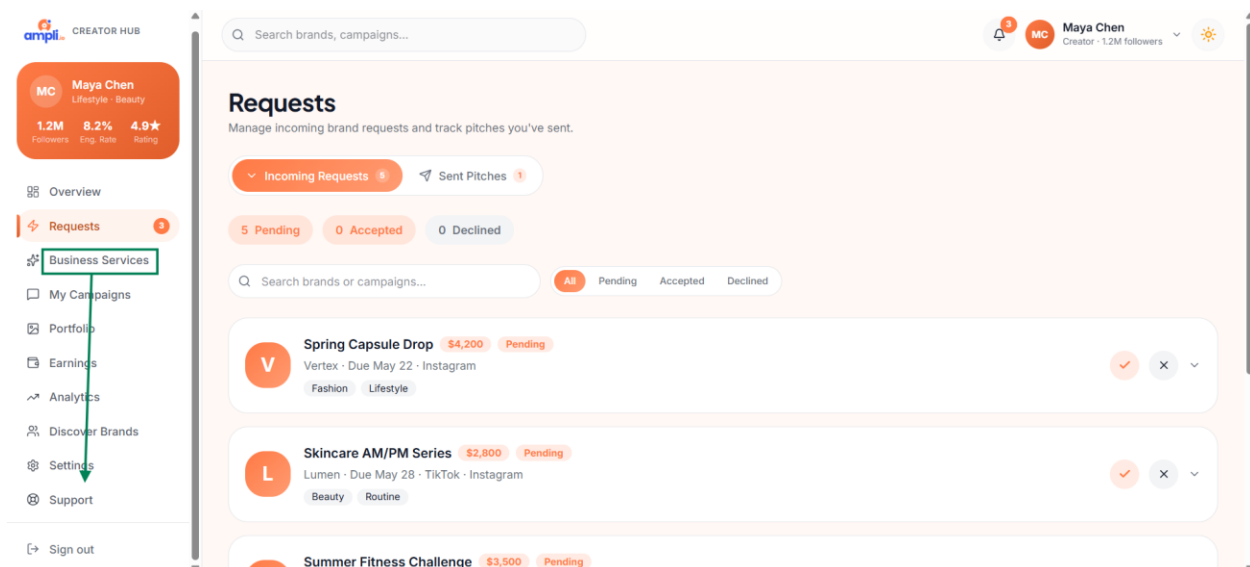

Lates Change E:

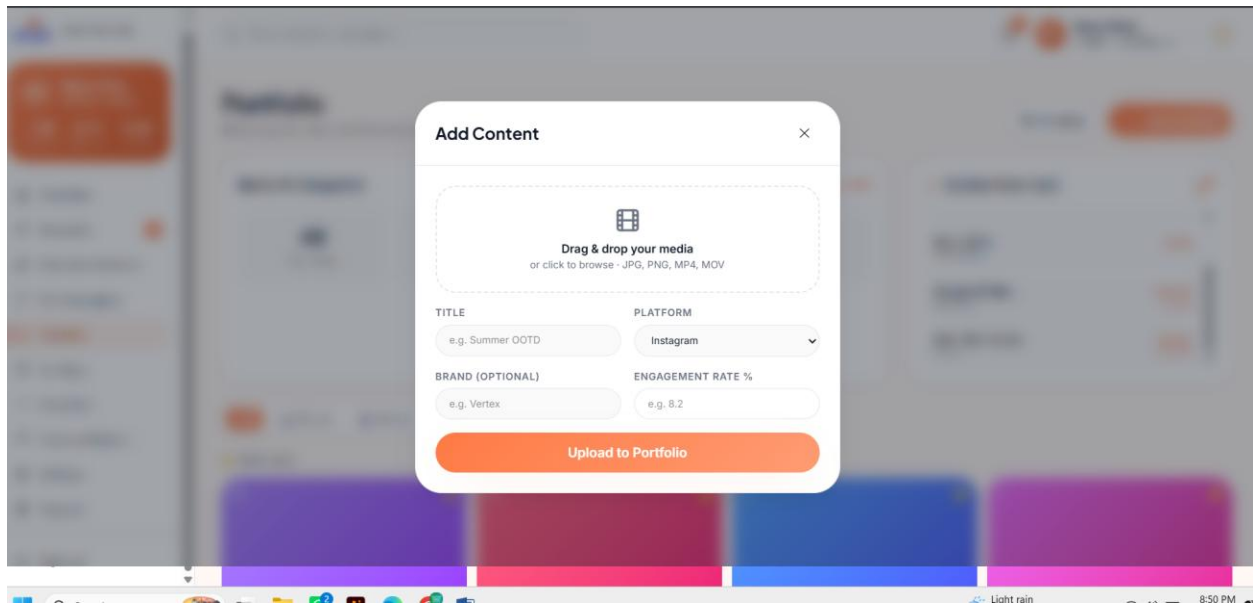

- Change the “Upload Draft Asset” as “Upload Asset”
- Change the “Edit Live Delivery” as view asset. (uploading post link and analytics screenshots should come to Analytics section of the workspace. it will become a double entry and a bit confusing if we add an option to upload in the deliverables section)
- Change “Edit Draft Asset” as “Edit Asset”

Latest Change F: Creative Asset Submission

Latest Change G: Move Business services to 9th place

Latest Change H: Please have an option to upload a screenshot along with the content to get the true engagement rate

Latest Change I: Please make sure to change the campaign workspace layout like business dashboard
